"The Star Clothing House"  
is by all odds the place for him. We make a deeper study of quality, fit and workmanship than any other house. ### PHILIPPINE SOUVENIR

Received by Colonel Philip Maurer From a Soldier Friend in Luzon. Col. Philip Maurer, of the Home Guards, has received some very fine trinkets and mementoes of the Philippine Islands from Mr. Charles B. Fleming, of Company E, Twentieth United States Infantry, who is now fighting for the honor of the flag against the Tagal insurrectionists. The trinkets consist of some very fine sea shells, a spoonful of diamond dust and a half-penny piece of Japanese money that is as large as a checker. The memento sent to Col. Maurer is the brass button of a Spanish soldier which was burst from his coat while eating some of the celebrated canned pot-pie upon which the Americans are growing fat. But most interesting of all is a copy of "Freedom," a newspaper published at Manila, which is thoroughly American in type, sentiment and general make-up. It is gloriously and hilariously for expansion, is patriotic and advocates Greater America.

### STATE PRISON BOARD

Meets in Moundsville—Cases of Dismissed Guards To-day.

The state prison board met yesterday at the state penitentiary, Moundsville, with Messrs. Arnold Scherr, John A. Bloyd and Gilkeson present. Mr. Wolfe, of this city, was not present, but is expected at to-day's session, when the board will take up the cases of the guards who were suspended or dismissed by Warden Hawk recently. At yesterday's session the board only considered routine business. To-day the board will give contracts for furnishing the prison with meats and other supplies.

It is stated that Warden Hawk has set 4 or 4:30 a. m. on Thursday, as the hour for the execution of Frank Broadenax, the condemned murderer from McDowell county, whose case was considered by Governor Atkinson with unfavorable result.

### SENSATIONAL RUMORS

As to the Murder of James Gonnell, That Are Without Foundation. The Assassin Came on Horseback. Although no direct clue was discovered yesterday that would lead to the apprehension of the murderer or murderers of farmer James H. Gonnell, near Mr. Pleasant, Saturday evening, there seems to be a good opportunity for some fine detective work on the case, says last evening's Steubenville Herald-Star.

Coroner Fisher, Deputy Coroner George Campbell and the other officers who went to the scene of the assassination yesterday morning, returned last night, and while they obtained many facts and interviews from persons in the immediate neighborhood of the tragedy, the evidence was insufficient to make any arrests, even on suspicion.

It is certain that the assassin of Gonnell rode within 500 yards of the house and tied his horse to a fence along the road. He then climbed the fence enclosing the garden, and after committing the murder returned, mounted his horse and rode away in the direction of Smithfield. The tracks of the horse on the road from the place where it was tied were plainly discernible along the road and show that the animal had one or more shoes off. The shoe is a No. 3.

From the testimony taken yesterday it shows that Jefferson Rainbow, who is the Gonnell's nearest neighbor, was the first to arrive after the murder. Rainbow had been down at Dillonvale, and says while returning home he heard a shot fired. This was followed in a short time by a noise which he took to be the squealing of pigs. Coming on up the road the noise again attracted his attention, and as he came nearer it sounded like some one screaming. He then rode direct to Gonnell's, where he heard the women crying for help. Rainbow came in an opposite direction from which the assassin rode up to the Gonnell house.

Mrs. Rainbow, mother of Jefferson, also heard the shot fired and came on to the porch, thinking her son or some one in the neighborhood had trespassed. Mrs. Rainbow while on the porch, also heard the clatter of horses' feet along the road shortly after the shot had been fired, but could not see the horse, as it was dark. This was undoubtedly the assassin making his escape.

A gun belonging to Jefferson Rainbow, found at his home, was examined by the coroner, but its condition showed that it had not been handled or fired for some time.

Another young man was interviewed as to visits paid by him to Gonnell's house, but nothing important was elicited.

There are many sensational rumors flying around through the neighborhood, but many of them have no foundation.

A close examination of the assassin's tracks in the garden from where the shooting took place revealed the fact that he wore either gum boots or had gum shoes drawn on over his shoes.

The bloodhounds which were brought from Quaker City were a complete failure, as they lost the scent a very short distance from the Gonnell house and started on the trail of sheep tracks.

At the present time the murder is enveloped in deep mystery, but the effort to get something tangible will be pushed as vigorously as possible.

The funeral of Mr. Gonnell took place this morning at 10 o'clock, and was very largely attended, the entire community turning out to attend the obsequies. The family of the dead man are almost distracted with grief at the tragedy.

### AMUSEMENTS.

One of the most perplexing illusions presented by Magician Kellar this season, bears the old title of "Out of Sight." The newspaper men in the cities have dubbed it "Kellar's Divorce Machine." It illustrates a theory that obtains in India, among the theosophic adepts that they are able to cause their bodies to disintegrate, and vanish into thin air, at will. It's a pretty tough theory for Americans to swallow but it's a good story anyhow. Kellar has a scaffold-like structure, with a common chair suspended for the cross beam, by means of ropes. In this chair he places the lady who is to be parted with, fires a pistol at her and—well, that's all there is to the trick. She's simply gone, and not a trace of her remains. The empty chair falls to the floor and the audience gasps "Oh!" Kellar will present a dozen marvelous Oriental illusions and an entire new budget of experiments in pure sleight of hand, when he comes to the city at the Opera House, Monday night, November 13.

#### "Zaza" is Coming.

Mr. Charles Frohman will present Mr. David Belasco's latest and greatest play, "Zaza," at the Opera House. Tuesday evening, November 14. The company which will be seen in Mr. Belasco's play in this city, has been especially selected by Mr. Belasco, and under his direction thoroughly rehearsed. These facts will be a guarantee to those who know the thoroughness of Mr. Belasco's methods of training actors, and actresses, that the play will be excellently acted. All of the original scenery and properties that have contributed so materially to the great success of "Zaza" in its New York run, will be seen in the production offered here.

#### Standing Room Only.

The Gibney-Hoeffler company presented "Woman in Black" at the Grand last night to the largest Tuesday night audience which has ever greeted a repertoire company in that theatre. The play was handsomely staged, and was capably cast, the work of the principals being especially good. In the afternoon the bill was "Charity Ball," and this famous society drama was well received. The specialties were enthusiastically received. The comedy jugglers gave the best act of its kind ever witnessed here, and alone repay patrons. The play for the matinee to-day will be "Forgiveness," and to-night "The Black Flag" will be presented for the first time at popular prices.

## NOW'S THE TIME

For the South Side People to Get Together and Insure

### STARTING UP OF THE HOBBS

Glass House—A Meeting of South Side Business Men and Citizens is Called for Friday Evening, When a Representative of Senator Scott Will Be Present to Explain What is Necessary to Be Accomplished.

Mr. M. J. O'Neill, acting as the representative of United States Senator M. B. Scott, spent yesterday on the South Side in the interest of the movement to acquire the Hobbs glass house from the present owners, the United States Glass Company, and put it into operation again under local ownership. He interviewed a number of business men during the day and received considerable encouragement, but no subscriptions were made.

Last night it was decided to call a meeting of citizens and business men of the South Side, who are in favor of resurrecting the industry, for next Friday evening at 7:30 o'clock, at Mozart hall, corner of Thirty-eighth and Jacob streets, and it is sincerely hoped by every friend of progressiveness in the city that there will be a large and representative attendance that will result in subscriptions being made sufficiently large and numerous to insure the closing of the deal, inaugurated by Senator Scott recently securing an option that expires at the close of this month. It is necessary for South Side people to come to the front and aid this enterprise in order to encourage financial support from business men north of the creek.

Mr. O'Neill has not yet solicited subscriptions up town, and will not begin there until after the South Side meeting Friday night. He will again visit the South Side people to-day, in order to stir up interest in the meeting.
